SUFFRAGE AMENDMENT NOW UP IN TENNESSEE

PLAN PROGRAM OF ORGANIZATION

Politicians Are Wondering
Who Will Be Candidates
for Seats.

By the Associated Press
OKLAHOMA CITY, Aug. 11.—Comment among politicians as to the organization of the coming eighth legislature of Oklahoma has begun, following receipt of unofficial reports on the primary election Aug. 3. The reports covered almost all the state senatorial districts and about one-third of the candidates for the house of representatives.

R. L. Davidson of Tulsa is not expected again to be a candidate for president pro tem of the senate, and Harvey B. Cordell of Manitou, Tillman county and S. L. Johnson of Okmulgee, two of the oldest members of the senate in point of service, have been mentioned as possibilities to succeed Davidson in the position. C. A. Dearmon of Naples, Grady county, and T. C. Simpson of Thomas also have been mentioned in the "gossip."

It has been indicated that the position of chairman of the senate appropriations committee, held by Elmer Thomas in the last legislature, may be assigned to any of the senators mentioned for president pro tem. Senator Davidson has been regarded as a possibility for the chairmanship.

Among the Democratic nominees for the state senate, who did not serve in that body in the last legislature but are expected to be active if elected are mentioned T. J. Leahy of Pawhuska, a member of the state constitutional convention and a delegate to the Democratic national convention at San Francisco; Morton Rutherford of Muskogee; Henry D. Vance of Tahlequah, county attorney of Cherokee county; Charles E. McPherron of Durant, Colonel of the Third Oklahoma Infantry, and W. J. Holloway of Hugo.

Mrs. Lamar Looney stands out prominently in state house gossip as the only woman so far known to be nominated for the senate. Mrs. Looney defeated G. L. Wilson of Mangum, a member of the last senate.

Turning to the house of representatives party leaders are talking of Edwin Dabney of Altus as a favorite for speaker, provided he is elected to that body. J. B. Harper of Tahlequah also is expected to be a candidate for speaker, as are W. E. Disney of Muskogee and Ben F. Harrison of Calvin. Harrison already has held that office for one term.

REGROUPING OF POLISH FORCES HAS BEGUN

By the Associated Press

WARSAW, Aug. 11.—A concentration and regrouping of Polish forces for an extended counter attack on the entire Warsaw front is reported by today's newspapers.

The plans, it is said, are to begin this counter movement within a few days. Military men express the opinion that this is a potentious strike back against the Bolshevik forces, who are endeavoring to circle the capitol.

MEMBERS OF POLISH GOVERNMENT TO LEAVE

By the Associated Press

LONDON, Aug. 10.—Members of the Polish government are reluctant to leave Warsaw, says a dispatch dated Monday, from the Polish Capitol to the London Times. It says the ministers say nothing is settled and that for the present they will remain in the city.

Blackbucks or common antelopes of India travel in herds some times numbering thousands.

BACKS AGAINST WALL, THESE MEN FIGHT TO SAVE POLAND

General Haller (left), General Pilsudski and group of Polish soldiers.

Poland, her back to the wall, depends upon these men to save her from utter defeat and ruin at the hands of the Russian Reds. General

Pilsudski, president of the republic, is actively commanding the Polish armies in the field against the advancing bolsheviks. General

Haller, commander of the troops trying to keep the Reds out of Warsaw.

COTTON GROWERS ARE ORGANIZING

Thirty Thousand Farmers
Are Expected to Join
This Fall.

OKLAHOMA CITY, Aug. 11.—The Oklahoma Cotton Growers association now under organization over the state, proposes to have no less than 30,000 farmer members and handle not less than 300,000 bales of the Oklahoma crop of cotton, according to officials of the association here. The association plans to sell cotton through one agency and on a non-profit basis, giving each farmer member all the benefits which are derived through selling in large lots, and as directly as possible to the spinners agents.

Initial proposals to market some of this year's crop through the association were abandoned at a general mass meeting of cotton growers, as it was decided that such time between now and cotton harvest is too short for the organization to act. Before the next crop however officials explain the association will have warehouses secured wherever they are needed and established selling agencies. In these warehouses the cotton of all the farmer members will be gathered together, graded, classed and otherwise inspected.

Membership in the association is limited to actual growers of cotton or a landlord who receives cotton as rent. The association is one which proposes to be strictly of farmers, for farmers and governed by farmers, for the purpose of handling and selling the cotton of its members only, and of insuring to those members the largest possible percentage of the spinal value of the cotton grower.

SUFFRAGE LEADERS LAUNCH FIGHT FOR RATIFICATION

By the Associated Press

RALEIGH, N. C., Aug. 11.—Suffrage leaders of North Carolina, say they will not wait on the action of the Tennessee legislature, but will launch the fight for ratification, as soon as Governor Bickley submits the amendment. Both anti and suffrage leaders express satisfaction with the outlook, although it was admitted on both sides that the vote on ratification will be very close.

PARIS, Aug. 10.—That the allies would continue sending munition and skilled officers to Poland. The blockade measure would probably be taken up later, it was said, but French opinion questioned the effectiveness of such action.

PRESIDENT WILSON WILL
ASK MINERS TO MEET

By the Associated Press

WASHINGTON, Aug. 11.—President Wilson today asked the point scale committee of bituminous coal miners and operators to meet at Cleveland, August 13, to consider any inequalities in the award of the bituminous coal commission.

The worst thing about politics is that after a perfectly normal citizen has been in public life for a few years, he begins to think he has an inalienable right to his job for ever and ever.

AMERICA MAKES POSITION KNOWN

The United States Stands
as Favoring Political
Independence.

By the Associated Press
WASHINGTON, Aug. 11th.—The position of the American government in the Polish situation was today before the world.

Stated briefly, the United States stands as favoring preservation of the political independence and territorial integrity of Poland and as opposing any dismemberment of Russia. The outlines of this policy were set forth in a note dispatched yesterday by Secretary Colby to the Italian ambassador, to the end that Poland shall continue as an autonomous state, the American government, Secretary Colby declared, in his note will follow a policy "directed to the employment of all available means to render it effectual; to safeguard the interests of the Russian people, as distinct from the Russian soviet regime. The United States, through the note, declares to the allied and associated powers that they would regard with satisfaction a declaration by them in respect to the territory and true boundaries of Russia.

The United States, the note asserts, takes no exceptions to the efforts to arrange an armistice between Poland and Russia, but for the present at least, cannot consent to any plan to diversify such armistice negotiations into a general European conference.

NEGRO DEMOCRATIC CLUB TO HOLD MEETING AUG. 16

By the Associated Press
OKLAHOMA CITY, Aug. 11.—A meeting of the state, senatorial, congressional and legislative committees of the Negro Democrats' club of Oklahoma has been called by Frank W. Reed, president, and A. W. Watkins, secretary. The meeting will be held August 16 and 17.

A new executive committee will be chosen and plans for the campaign this year will be made, the call stated. Plans for a state convention of negro Democrats also will be made.

VETERAN NEWSPAPER MAN SELLS OUT INTEREST TO SON

By the Associated Press
HOBART, Aug. 11.—J. M. Pate, veteran newspaper man of Hobart and for many years editor of the Republican, has disposed of his interests in the paper to his son, E. W. Pate.

JOINT RESOLUTION RATIFIES AMENDMENT

NASHVILLE, Tenn., Aug. 10.—A joint resolution providing for ratification of the Federal Woman's suffrage amendment was introduced today in both houses of the Tennessee legislature. Speaker Todd offered the resolution in the senate and the Shelby county delegation which declared solidly for ratification, presented it in the lower house.

Under the rules the resolution went on the table until tomorrow, when it will be brought up for discussion. The tentative program is to refer it to the two judiciary committees, which are expected to conduct a joint hearing later in the week.

PITTSBURG COUNTY SETS NEW LAND SALE RECORD

By the Associated Press
MCALISTER, Okla., Aug. 11.—The largest sale of land recorded in Pittsburg county for many years took place here recently when Frank and Ira Ward purchased 1,540 acres of land on the Jefferson Highway, north of Kiowa, for a consideration of \$105,900. The land has been divided into three sections but will be consolidated into cattle ranch, upon which pure bred cattle will be raised.

Made It a Closed Shop.
CHICAGO.—Mrs. Antoniette Limonson, member of the tailors union, carried a card. Her husband didn't. He got a divorce because of her "closed shop" principles and because she wouldn't let him attend union dances.

BATTLE FOR RATIFICATION OF NATIONAL AMENDMENT BY THIRTY SIXTH STATE HAS OPENED IN CAPITAL OF THE VOLUNTEER STATE.

NASHVILLE, Aug. 11.—An attempt to delay action by the Tennessee legislature on the resolution to ratify the woman's suffrage amendment until after the county mass meetings could be held on Aug. 21st, was defeated today in the lower house of the state assistant, when a resolution proposing that action be effective was tabled by a vote of 50 to 37.

NASHVILLE, Aug. 11.—The resolution was introduced by representative Hall, Bond, Luther and Milliken. Mr. Hall stated that both advocates and opponents of suffrage were represented among those who offered the resolution.

An amendment providing that the proposed mass meetings be held the third Thursday in September was tabulated. The debate on the resolution began immediately after the speakers had ordered a roll call.

MARION, Aug. 11.—Immediate ratification of the woman suffrage amendment, in order to clear the political atmosphere and contribute to national stability, was urged by Will H. Hays, the republican national chairman in a telegram sent today to several republican members of the Tennessee legislature.

The message was framed after consultation with Senator Harding and was sent from here shortly before Hays departed early today for Chicago.

NASHVILLE, Aug. 11.—The first move in the fight for ratification of the federal woman suffrage amendment by the Tennessee legislature, was made in the lower house immediately after it convened today with the ratification of a resolution proposing that action on consideration of ratification be deferred until after the people of the state should hold state wide mass meetings on August 21st in order to express their opinion for or against the amendment.

"Wildcat" Oil Men Are Traced Back to the First Century A. D.

When the professional oil wild catter of the twentieth century moves up in the Pontotoc county field and builds his derrick, pulls off a celebration and "spuds in" and starts drilling for oil, he generally feels like he is launching a new business or industry. He believes the oil business is yet in its infancy. He believes further that thousands of barrels of "liquid bitumen" are sealed up in the half moon shaped reservoir in the structure, and if he can only force the "steel needle" down through a couple of thousand feet of rock beds he can open an outlet for this oil, which under the hundreds of tons of rock and gas pressure will gush out over the derricks, startle the neighborhood, spatter the surrounding country with shimmering grease and allow him to wire his stockholders in eighteen or twenty states, a message will be made.

"Wonder pool struck. Vertical river of crude oil gushing high above derrick. Will pay monster dividends as soon as clerical force can be hired to check out same."

Such are the spectacular dreams of the present day oil promoter. He is an adventurer of the first magnitude and his dreams are coming true in many instances. Yes, we might add that his dreams in the Steedman and Allen fields came true, he longed for the sight of the "pay grease" in Pontotoc county. Today he sees barrels of that black liquid drained from the earth as pure as gold of Alaska.

But the oil industry is indeed not a discovery of the twentieth century. We note that an oil anticline was cut through by a tributary of the Euphrates river years before Christ, and some of the oil was used in mixing mortar to build the walls of Babylon. This information is contained in the work of Herodotus, the Greek historian, and also mentioned by Diodorus, Bechart and Josephus, who refer to oil springs that existed at that time.

The first oil made in America was gotten out by Peter Kalm, a Russian traveler, who drew a map showing the location of oil springs in Pennsylvania. This was in the year 1748, but the oil deposits of America were not exploited until the early part of the Nineteenth

GREATER LOVE HATH NO MAN THAN THESE TWO PLAYERS; THEY LEAD LEAGUE IN LAYING DOWN THEIR BASEHIT LIVES

Joe Gedeon of the Browns and Ray Chapman of the ambitious Indians are leading the American league right now in sacrificing. These two birds are running an even race in the number of times they have passed up a chance to hit 'er out to dump one in front of the plate. Recent averages showed them tied with twenty-two suicides each and their nearest competitor was Donie Bush, with seventeen. Because of the fact that both boys are speed merchants they have dumped many more than twenty-two in between the pitcher and catcher, as they have beaten out many before the ball could be fielded and snapped to

Ray Chapman, hitting the dirt, and Joe Gedeon.

Fred Coumbe.

By Norman E. Brown. The orchestra will please strike up that stirring ballad "Til I Come Back to You," while we introduce to this column one Fritz Coumbe.

When this happy-go-lucky portrider was given the tinware by the Indians last spring because of his failure to get into winning form the majority of fans and his teammates were sorry to see him go. A straightforward chap, clean liver and well liked; but he had one failing—ability to take baseball in general and pitching in particular seriously. In training camp he'd sooner covet in the outfield than warm up his soupone.

Manager Spender sent him to St. Paul. Coumbe took the news gracefully. Before he left he wrote a note to Owner Jim Dunn. And the jist of the note was: "I'm not downhearted, because I know I can show you that I can make good in the A. A., and I'll be back with you next year if you're still looking for more pitchers."

And Coumbe is living up to his boast. His work with the Saints has been little short of marvelous. He has pitched half a dozen few hit games and his batting has helped win a few games for him and his teammates.

Coumbe joined the Indians in 1914, being traded by the Red Sox along with A. L. Johnson and again for Vean Gregg.

In flashes Coumbe showed the stuff of which great left-handers are made. But his season record was never very good. One season he started off with five straight victories only to fizzle for the remainder of the campaign.

His best year was in 1918, when he coppered 13 games and lost 7. He was born in Antwerp, Pa., in 1892. He made his bow to baseball fans in 1913 with the Utica team in the New York State league. The Red Sox drafted him the following season.

A Bumper Cotton Crop. WASHINGTON, July 2—A cotton crop of 11,450,000 bales, or larger than that of last year, was forecast today by the department of agriculture, as a result of the material improvement in the condition of the crop since May 25th. On that date the condition of the crop was the worst on record. The department based its estimate on the condition of the crop June 25th, which was 70.7 per cent of normal, and on the area under cultivation on that date, which announced as 35,504,600 acres.

Plans are on file with J. E. Hickman, school superintendent, at Ada, Okla., and at the office of Jewell Hicks, architect, 19 1/2 W. Main st., Oklahoma City, Okla.

Ada Music Company

C. P. Penrose

We are leading you close be side the "land of harmony" in this number. It is a music store. They have been carrying the carols of contentment and cultivation into the homes of this city and of the adjoining territory for sometime now. They handle the standard lines of pianos and players, as well as other instruments and general musical merchandise and sheet music. A big feature in the business of this store is the New Edison the instrument of recreated music. Don't wait till you reach the "land of pretty soon" to get one — use them while you pay for them. "Do it now" is their motto, while the family is all at home and needs the refining influence of music. What is the name?

Oriswell Undertaking Company

What is the name of the undertaking firm in Ada which has charge of one of the pioneer establishments of the city? During the history of this establishment the business has been handled with the greatest care and consideration for the interests of their patrons. This institution has every convenience at its disposal to serve the public in the best possible manner. Licensed lady embalmer, full motor equipment, private ambulance. Answers calls day or night. A complete picture framing department. East Main — now occupying new quarters with improved facilities. What is the name?

Standfield's Grocery and Market

When you are wondering who will most likely have it when it pertains to groceries, meats or produce, what store comes to mind so readily? It was put in operation some years ago by a firm which knows quality merchandise. Maintains better service at the same price. One order gets both the groceries and meats at this store, thereby saving the nervous exhaustion required in getting both the grocer and butcher. They have a big stock of staple and fancy groceries of all kinds, table delicacies that will sure appeal to good taste. The largest retail grocery and market in the city. What is the name?

The Globe

This number introduces to you a dry goods ready to wear, furnishings and shoe store that does credit to the town. Although established only a short time it has built up a large trade. It is under the direction of a merchant of wide experience who has a thorough knowledge of values. The stock selections have been made extensively and critically from many sources with the object in mind of giving their patrons the very best values for their money. You will find the selections most complete in all lines. The name suggests something very round. What is the name?

Hensler & Story, Drugs

We are speaking now of an up-to-date drug store. A drug store resembles a bank in that you will never find a good one in a poor town. Ada people demand the best of everything, and so far as their wants in the line of drugs and allied specialties are concerned this store meets every requirement. It is a store that was established about 14 years ago placing it among the older business concerns of the city. Recently this business has come under the management of two progressive young men, well acquainted with the drug line. It caters to every want in the drug line with considerable emphasis on the prescription department. Known as the Nyal Quality Store. What is the name?

Auld Cleaning Works

What is the name of the works that knows how in the cleaning line? They clean everything in the way of garments for both ladies and men, use the most modern processes and guarantee satisfaction. The young man at the helm is well and favorably known, having been for six years with a leading mercantile store of this city prior to going into business for himself. He is the Ada representative of the Edward E. Strauss Co., makers of Edesco, the finest made-to-measure clothing. He has a nice showing of fall patterns. Now located in new quarters on South Broadway. Strong on cleaning and pressing, with a special accent on ladies' work. "We strive to please." What is the name?

L. Rock's Garage

What is the name of the big garage in Ada where they have plenty of room for storage for your cars and where you can feel they are safe and under good care? This firm makes a specialty of the repair and service business. They have a corps of able mechanics who understand the work of repairing and rebuilding of automobiles. It matters not what the make of car or what all it, they can fix it. Complete line of auto supplies, tires and greases. They also do inner tube repairing. What is the name?

Glines-Batell, Millinery

In this number we introduce a fashionable millinery store that takes the lead. The new fall styles on display are the product of the world's great fashion centers. The coming fall season promises to surpass even the big business of this firm during the past and they will be prepared to fully meet the demand. There are hats to please the most fastidious. The originality of styles and the appropriateness and adaptability to the person are the features that predominate in this shop. The artists at the head of this millinery store are noted for their success in this regard. A very choice line of ladies' ready-to-wear will also be found at this shop on East Main. It is a

big business that was started only a little more than a year ago. It has grown rapidly in popularity. What is the name?

Bennett Brothers, Transfer
9 "The world do move"—and so does the transfer and storage company this number represents. That they understand their business is evidenced by the large amount of work they are called upon to do. They make a specialty of moving anything and everything. Especially equipped for the careful moving of pianos and household goods. They not only do all the work but all of the worrying as well. If you employ this concern to do your hauling you may rest assured that it will be done right. The office is located on Twelfth street, near the postoffice. What is the name?

American Cafe

10 Here we give note to a popular eating establishment in Ada. It is a good place to get your breakfast and it is just as good for your dinner and supper. Their meals and short orders never fail to please the most fastidious. This is a well established cafe and very centrally located. It is well managed and the owner gives the business his personal attention. The service is prompt and satisfactory from every standpoint. Plenty of nice clean rooms in connection. The name suggests patriotism. What is the name?

Ada Vulcanizing Co.

11 W. L. Nettles, Mgr. Here we make note of a concern of particular merit. It is a shop which has been in business since 1917, where they specialize in the art of repairing everything in the way of rubber goods. They are fully equipped for the business and understand every phase of repair work. They do vulcanizing and do it in a manner that gives entire satisfaction to the customer. Special attention is given to the repairing of automobile tires and inner tubes. They operate a general service station, such as free air, water and service and have the agency for Mohawk, Oldfield and Miller Tires. On the corner. What is the name?

Ada Millinery Parlor

12 Mrs. A. W. White, Prop. As well be out of the world as out of fashion. Goodyear Tires for Small Cars Are Popular Because Economical

There is nothing but disappointment in buying cheaply made tires that are announced as wonderful bargains at a few dollars each and then fail after brief terms of service.

Get exceptional mileage at exceedingly low cost in Goodyear Tires, of the 30x3-, 30x3½- and 31x4-inch sizes, built of Goodyear selected materials and with Goodyear skill and care.

Due to their precise manufacture in the world's largest tire factory devoted to these sizes, their quality is most economically produced and therefore most economically employed.

If you own a Ford, Chevrolet, Maxwell, Dort or other car taking these sizes, go to your nearest Service Station for Goodyear Tires; ride farther and fare better.

GET OUT, SATAN

Three times during the past month flattering calls have come to us to accept employment in large cities. The calls are flattering because it is always gratifying to know that one is wanted for a higher position and they are more flattering because handsome compensation is offered with each call. But those calls must go unheeded, for there are in life some things that cannot be bartered and many things that must not be thrown away.

Who would surrender his home and his friends and his independence of action for the heat and the noise and the crowded isolation of a modern city life? Who would become a small cog in a vast industrial machine for the sake of additional dollars, which must be left on this side of the river when we reach our journey's end?

When we were younger and possibly more ambitious we yearned for the brilliant lights and night-long excitement of the great white way. But time has taught us that any occupation and any environment is a mockery when one remains a stranger in the midst of a crowd and is unutterably lonely amid a multitude of men.

Give us the green trees and the flowers and the companionship of friend and babble of childhood's laughter. We prefer to abide where we know our neighbors and where we can meet our fellows face to face. We would rather discuss a ball game and argue politics on a familiar street corner than to read our editorials in the biggest daily that ever came from a perfecting press. We would rather write a story concerning a farmer's goober crop than to sit in a dingy den at the top of a skyscraper and draw a salary of several figures.

We live today in a city of homes that we are proud of and among a people of our kind. We are getting along better than we deserve and will not be foolish enough to discard the substance to dive after the shadow. Life is worth living in Ada and we intend to live twenty four hours a day.

WHAT IS THE LAW?

Only recently a man was arrested in Tulsa and brought back to Ada to face a charge of forgery. On appearing in court he admitted that he was guilty of the charge against him. His bond was fixed at \$300.00 and he was told that if he would pay off the check he had forged, the charge against him would be dismissed.

The fact that the check admitted to have been forged was for a trivial amount does not excuse the violation of the law. Forging a check for five dollars may be considered a mere breach of business rules, but in fact it is a felony. The law in this case was violated. The law has not been satisfied. A man who admitted his guilt in a felonious transaction has been subjected to a temporary inconvenience and permitted to go his way. The violated law has not been satisfied. The law certainly has not been enforced.

The law will never be respected as it should be respected and lawlessness will never be reduced materially by simply permitting the delinquent to apologize for a felony and return the amount he has gotten in an illegal way. No fear will ever be thrown into the hearts of the lawless element by treating slight offenses as jokes. If the certainty of punishment is the surest deterrent of crime, it certainly follows that the certainty of clemency is an encouragement of crime.

THE COUNTRY NEWSPAPER

In commenting on the attack of a metropolitan daily which attempted to belittle the political influence of the country weekly and daily over the land, Harry Hammond, editor of the Byron, California, Times, one of the liveliest and most progressive papers in the country, says:

"While the country paper is small, it is doing just as much, in its way, for the progress and development of the section it serves as any of the larger papers, and in some cases a great deal more, because, as a rule, the bigger the paper the more its opinions are dominated from the counting room, something never thought of by the country weekly, which boosts its locality all the time without thought of receiving pay for such service."

"The people of a country community swear BY and not AT their local paper. It carries far greater weight, politically and otherwise, with them than does the paper of metropolitan pretensions. The country weekly is closer to the hearts of its readers than is the case with the larger newspapers."

Only a month 'till the schools begin to open. Every pupil should enter the first day and every boy and girl who has completed the grades or high school should by all means enter a higher school and complete the course. This opportunity will never come back to you.

The vote received by Tom D. McKeown in Pontotoc, Hughes and Pottawatomie Counties in the recent primary was equal to the Republican voting strength of the entire fourth district. This is not very encouraging to the Republican nominee in this district, whatever his name is.

Schools of County
In Good Shape for
Coming Year's Work

County Superintendent, A. Floyd states that the schools in general over the county are in good shape for the work of the coming year. Every district has voted ample funds for the maintenance of its schools. Where it has been necessary the limit has been voted. This has enabled the schools to employ more and better teachers.

Salaries in general have made a substantial increase. The rural districts have probably raised 25 per cent over last year. In the towns it is not likely that the increase has been this much.

More able men are being employed in the teaching profession this year. This is a help to the work. Also, principalships of large and small are being better filled with capable women this year than last year.

People are waking up to the needs of education. They are doing more to encourage the teachers. Teacherages have been built in various places in the county to aid in securing good instructors. In this time of house shortage, a house ready to live in is no small favor.

Sentiment is growing in favor of consolidation in the rural districts.

This is beneficial in the fact that makes possible the equipping of one good school to accommodate all the

school children, whereas if they are scattered in several places neither school can give the efficient instruction that is possible in the consolidated school. Yesterday it was voted to consolidate the schools of Vanoss, Bell View and Lanham. Something like \$24,000 is planned to be expended in the erection of a consolidated school. Work on this building will begin as soon as possible.

The record of enrollment and attendance of last year was not a bad one but it is hoped to make it still better this year.

Last year 94½ per cent of the rural children of scholastic age were enrolled.

This of course does not mean that they attended very regularly.

It is entirely possible to better the record and the teachers of the coming year are going to do their best to better it.

Illiteracy in this twentieth century is unthinkable.

Every citizen, whether a parent of children or not, will aid in every way possible to give the youth a chance to receive the best in education.

OKLAHOMA CROPS

BEST IN HISTORY

Plenty of Rain Falls Over State Which Assures Big Crops.

By the Associated Press

OKLAHOMA CITY, Aug. 11.—Crops in Oklahoma continue in good condition and generally made satisfactory progress during the week ending August 10th, says the weekly synopsis of weather and crop conditions for the state, issued today by the weather bureau here.

The week's weather consisted of temperatures slightly below normal, slightly deficient sunshine and moderate to heavy showers over the state, the report states.

Early corn is beyond the stage where it can be materially injured by weather conditions, according to the summary, while late corn generally made satisfactory progress, although late upland corn needed rain in some localities.

Plowing for new wheat progressed satisfactorily in most sections, the report added, and preparations of the ground for seeding is further advanced than usual.

The progress of the cotton crop was generally very good, continued the report, notwithstanding the rather cool weather and too much rainfall in some localities. The condition of the crop ranges from fair to excellent. The plants are blooming and fruiting well, with very few complaints of weevil and boll worms being reported in scattered localities.

tered localities, but no serious insect damage. The condition of the cotton crop as a whole continued to improve and at present the prospects is very promising.

BOSTON, Aug. 11.—An associate of Chas. Ponzi, from the home of the latter at Lexington today telephoned the Associated Press that Ponzi admitted that he was the Chas. Ponzi, formerly of Montreal. He added that the spectacular financier was in conference with his lawyers and would issue a statement later.

Summarizing developments for past week Washington reported the "Cotton" was unfavorably affected in the southeastern part of the belt, but progress was satisfactory most of the northern west portions, and very good to excellent in most of Oklahoma and Texas. The wheat-favored weevil increase and shedding in the southern part. Picking made satisfactory progress in southern Texas but was delayed by raining in central Georgia and Florida, rather slow in eastern states. The crop is generally fruiting satisfactorily.

Latest press advices indicate that the United States and England disposed to negotiate for peace with soviet Russia, while France is reported to have recognized General Wrangle as head of the defunct government in Russia which is likely to complicate the situation all the more.

While it is rumored that the semi-monthly report of the National Ginner's Association will be bearish, returns to the American Cotton Association average the condition of the crop at 69 vs. 75.2 two weeks ago.

Although a bearish construction was placed on today's weekly government report it is noted that it stated that the weather of the past week favored weevil increase and shedding.

Meanwhile climatic conditions remain generally unfavorable with indications for more rain, in nearly all sections of belt.

At near close of market it is rumored that returns to the National Ginner's Association average the condition of cotton at 72.2 vs. 76.5 two weeks ago.

COMMUNITY STUDENT TO VISIT CHAUTAUQUA

W. H. NATION

The needs of a community are reflected in the needs of the country. You cannot have a country of slipshod, poorly governed cities and towns, and at the same time have a progressive country any more than you can have a community that is better than the average of its citizens.

The Chautauqua is preeminently a community activity and no program is quite complete without a day devoted to self study under the direction of a constructive critic. It is one thing to listen to criticisms that offer no remedy—most any one can tear down—but it is quite a different matter to consult with a keen observer who has traveled much, and carefully studied many communities.

Just as a doctor's knowledge is the result of study and observation, so are W. H. Nation's lectures the results of many conferences with community officers in every part of the United States.

Mr. Nation will lecture twice on the fifth day, constructively criticizing and counseling our audiences upon community problems.

KEEP KIDNEYS WELL

Health is Worth Saving, and Some Ada People Know How to Save It.

Many Ada people take their lives in their hands by neglecting the kidneys when they know these organs need help. Weak kidneys are responsible for a vast amount of suffering and ill health—the slightest delay is dangerous. Use Doan's Kidney Pills—a remedy that has helped thousands of kidney sufferers. Here is an Ada citizen's recommendation.

E. B. Gregory, farmer, 509 W. Eleventh street, says: "Some years ago, I used Doan's Kidney Pills when I was having trouble with my back and kidneys. Doan's removed the stiffness and pain from the small of my back and regulated my kidneys.

HUTCHINSON, Aug. 11.—During the month of July, in this city, records at the city clerk's office shows 83 births and but 15 deaths a net gain in population of 68. There were 49 boys and 34 girls.

STOCKTON, Aug. 11.—The general interest manifested in the bumper wheat crop this year, farmers assert, is putting into eclipse what otherwise might be considered an extraordinary amount of "applause" for oats, the season's crop being unusually heavy. Joe Timmons, living west of Stockton, recently threshed a 13 acre field of oats which yielded 70.5 bushels to the acre, he reports.

TOPEKA, Aug. 11.—The following civilians have been named by Adj. Gen. Fitzsimmons, Clyde McKown, F. W. Tierney, and Fred Hardesty, Pratt; L. E. St. Hohn, Russell.

STOCKTON, Aug. 11.—"It was just like finding money," was the way John Drotts, a western Roots county farmer, described the "strike" he made in his 90 acre wheat field. Mr. Drotts bought the 160 acre farm last winter for \$5,000. As considerable volunteer wheat appeared to be coming on, he let it grow. He recently threshed the crop which amounted to 3,200 bushels at 40 bushels to the acre. Thus, without any effort or expense on his part except harvesting and threshing the grain, he has recovered enough from his farm to pay its entire cost and "enough over to buy a good automobile"—as he put it.

CONSTIPATION

And Sour Stomach Caused This Lady Much Suffering. Black-Draught Relieved.

Meadorsville, Ky.—Mrs. Pearl Patrick, of this place, writes: "I was very constipated. I had sour stomach and was so uncomfortable. I went to the doctor. He gave me some pills. They weakened me and seemed to tear up my digestion. They would gripe me and afterwards it seemed I was more constipated than before. I heard of Black-Draught and decided to try it. I found it just what I needed. It was an easy laxative, and not bad to swallow. My digestion soon improved. I got well of the sour stomach, my bowels soon seemed normal, no more griping, and I would take a dose now and then, and was in good shape.

I cannot say too much for Black-Draught for it is the finest laxative one can use."

Thedford's Black-Draught has for many years been found of great value in the treatment of stomach, liver and bowel troubles. Easy to take, gentle and reliable in its action, leaving no bad after-effects, it has won the praise of thousands of people who have used it.

farmers consider high wages being offered, according to Harry Chabin, director of the local branch of the Kansas Free Employment Bureau. In the wake of the harvest season, when harvest hands received \$7 a day many are remaining in this part of the state, but appear to be interested only in threshing jobs which pay \$7 a day or more. Mr. Chabin said. Local farmers are offering \$50 a month and expenses for farmhands, but many orders

Cantrell started in pursuit, stopping at Haviland where the gang evidently intended to board the train. The train was late so the gang gave a garage man a gold watch to drive them to Pratt. Cantrell over took them at Pratt, arresting the trio and recovering a large amount of stolen merchandise they had in their possession.

DUBINSKY OPENS SECOND WEEK IN EXCELLENT PLAY

Dubinsky's Stock Company opened their second week under their tent last night to a capacity audience in a presentation of Rex Beach's great story, "The Barrier."

The play was very interesting, dealing with Alaska during the time our government first sent soldiers to that country. The scene inversion surrounding the play all that could be desired, representing the old time trading post of the early days.

The characters of the play were all ably presented by the respective members of this excellent stock company. Special mention should be made of the excellent work of Wallace Griggs, as Jean, a comedy part which Mr. Griggs handled in

an extremely clever manner. Chas. Ellis, as Capt. Mead, also played his part in a fine manner, while the Misses LaGrande in the parts of Fay and Lura, handled two very difficult parts in an able manner.

The rest of the company gave excellent support in their respective parts.

The vaudeville between acts was of a high standard and as a whole the performance last night was right up to the Dubinsky standard.

ALL METAL MONOPLANE BLAZES WAY FOR NEW YORK-FRISCO MAIL ROUTE

Bert Acosta's plane in flight.

Here is one of the three all metal monoplanes that have just blazed the way for an air mail route from New York to San Francisco by way of Cleveland, Chicago, Omaha, Cheyenne, Salt Lake City and Reno. The plane's pilot is Bert Acosta, who some weeks ago made a non-stop flight with it from Omaha, Neb., to a point near Philadelphia, Pa., a distance estimated at between 1,200 and 1,400 miles.

WILDCAT' OIL MEN ARE TRACED BACK

(Continued from page 1.)

century when oil was taken from Lake Seneca in New York, and placed on the market as "American Medical Oil," in 1829.

The great era of the North American "wild cat oil prospectors" was opened in 1854, when a bunch of Pennsylvanians assembled and organized the "Pennsylvania Rock Oil company". This was the first drilling company known in America and unfortunately they prospered for about four years, failed to bring in a producer and eventually dissolved. In 1858 E. L. Drake selected some of the former members of the Pennsylvania company and formed the "Seneca Oil company" and started drilling on oil creek in Pennsylvania. It seems they were a good live bunch of oil men and had the nerve to continue the drilling.

The year 1856 passed and they continued drilling. They drilled during the spring of 1859, and nearly all of that summer, and on the 28th day of August, 1859, they were sixty-nine feet down, and their string of tools dropped into a crevice and on the following day learned that they had struck oil. The well started producing twenty-five barrels per day, and in five months was yielding fifteen barrels per day on "settled production."

During the first ten years following the above "strike" Pennsylvania was the largest producing oil field in the world, but since 1870 the oil industry has spread over the globe.

The first unmanageable gusher was struck in the Baku field and nearly all of the oil was wasted. Commercial oil was found in Illinois in 1856, and in 1889 the state produced 1460 barrels per day.

Oil was found in northern Oklahoma as early as 1890, but the first commercial wells were drilled near Bartlesville in 1903, and the Glenn oil pool near Sapulpa was in 1906, and 110 wells were drilled that year.

Oil was found in Texas in 1883, and the amount produced in 1890 was valued at \$227,000. The great gusher of Beaumont, Texas, was struck in 1901, and threw a stream of oil 160 feet high. It gushed for nine days before it was capped, and the amount of oil wasted is estimated at 500,000 barrels.

Since that time many great gushers have been found. They have become common in the recently developed oil fields.

They are no longer startling, and the producing and refining of oil has become the world's second greatest industry.

One fifth of the people of the world are busy inventing and manufacturing mechanical devices for using oil.

Another fifth are issuing certificates of security on oil properties and selling to the balance of the population for the purpose of testing, exploiting and developing the numerous fields, and the greatest producing fields are probably yet undiscovered.

To bring our story nearer home we will mention Ada, Steedman and Allen, who are in one survey made by the U. S. government and branded "Pontotoc County." Bordered on the north by the Canadian river, whose bed is the scene of drilling these days. To the south boundary is that terrain that shows indications of oil, same is true with the views both east and west.

Steedman and Allen have oil with Ada as headquarters of oil men. They are pumping oil every day from the earth. Allen has refineries where this oil is being prepared for its various uses.

They are shipping oil each day from both towns and find a ready market at the grade found in this locality is said to test out the best.

To our readers, no matter where you live, your age, color, church or political beliefs, we want you to concentrate your mind to this one subject. "Pontotoc county is the coming oil field of this state, the production is here and the

daily whirl of machinery in the wheels are insuring the most skeptical that someone is believing in this country."

To show the world that Pontotoc county is on the map as an oil center and means business, here is the latest data from the scene of activities at Steedman. These statements are authentic and are vouched for by a representative of this paper who visited the fields yesterday afternoon.

The Great Lakes Oil company is drilling in section 28, the exact location being section 28-5-8. Upshur and Upshur of Oklahoma City are moving a rig today to location in section 17-4-8. DaOklahoma Oil & Gas company have spudded in on new test in the SE 1-4 of section 17. Harvey-Universal people are in section 17-4-8.

Bob Ford has five strings of tools on his property in the field and is engaged in active operation each day. Ford is owner of two producing wells in sections 16 and 21.

Work will be commenced soon on building a loading rack for the oil that is being produced in the Steedman field. Heretofore the oil that has been produced in this immediate locality was used in drilling operations. Today the production exceeds the consumption and steps are being taken to get the surplus production to the refineries.

BOY SCOUTS WILL HIKE TO ARBUCKLE MTS.

By the Associated Press

NORMAN, Aug. 11.—Boy Scouts of Norman talk only about one thing these days, the coming camping trip to the Arbuckle mountains. The Scouts will leave Norman Aug. 28, returning about the middle of September. Ben G. Owen, football coach at the University of Oklahoma here, will accompany the Scouts. He is a member of the Norman Scout executive council.

RUSSIANS NOW COVER 24 MILES OF RAILROAD

The fiery oratory of the old South which has proved to be the natural heritage of many of the statesmen and educators of below the Mason and Dixon line, is still alive. This priceless possession is naturally called to the Chautauqua platform where its possessor can meet and sway the greatest of all present day assemblies.

The Chautauqua management is glad to announce Captain Wood Briggs in a new lecture, "Keep off the Grass." This lecture is a careful presentation of the relationship of the English speaking peoples. Captain Briggs will speak on the third afternoon.

Scott Ferris Is Very Thankful to Friends in Pontotoc County

Lawton, Okla., August 2, 1920
Editor Ada Evening News, Ada, Oklahoma.

Dear Friends: Will you please extend to my friends and supporters in Pontotoc County my deepest thanks for the splendid support they gave me in the recent primary contest. I have observed their fidelity with a gratitude that it is beyond my power to express. Realizing that it is impossible for me to communicate with all my Pontotoc friends I am presuming that you express my thanks thru the columns of the Evening News.

Whenever I find it possible to do anything in return for the generous support accorded me, I shall esteem it the highest privilege. With very best wishes for all my friends in Pontotoc county, I remain,

Sincerely,
SCOTT FERRIS.

Alleged Box Car Robbers Are Held to the District Court

Two citizens of Francis were bound over to district court yesterday on a charge of burglarizing a box car at Francis some days ago. The men are L. W. Patterson and Lee Raines. Testimony was submitted at the preliminary hearing in Judge Brown's court by both the state and the defendant and the court was convinced that the testimony against the defendants was sufficient to hold them to the action of the district court. Their bonds were fixed at \$1,000 each.

There have been several box car robberies at Francis since the beginning of this year. This is no doubt due to the fact that Francis is a division point where numerous cars are sidetracked and where a considerable floating population changes trains.
